

JSW MI Steel Service Center Pvt. Ltd.

JSW Steel Ltd. is a flagship company of the JSW Group and a leading integrated steel manufacturer, currently one of the largest steel companies, having presence in over 100 countries.

JSW is also the first company in India to manufacture high-strength and advanced high-end steel products for its automotive segments.

Marubeni-Itochu Steel Inc. (MISI, Japan) is a team of steel distribution professionals that serves as a bridge between customers and steel manufacturers. Acting as an integrated coordinator in steel distribution, we pool resources with our Group offices and subsidiaries to propose optimal solutions and create business opportunities.

JSW MI Steel Service center Private limited, was established in September 2011 as a joint venture between JSW STEEL (50%) and Marubeni-Itochu Steel Inc. (50%) to setup Steel Processing Centers in India.

Under this joint venture, JSW MI has set up its service centers at Pune, Palwal, Chennai and Ahmedabad with processing facilities for HRPO, CRCA, Coated and Electrical Steel.

# OUR VISION

To serve & earn the trust of the customers and all the stakeholders for highest level of Quality, Integrity, Efficiency and responsibility in all the activities that we undertake

## OUR KEY PRODUCTS

- 1) Slitting, Cut to size in shapes, Recoiling & Customized packing
- 2) High quality Inventory Management
- 3) Yield Management
- 4) Just in time delivery

JSW MI offers JSW Steel products made at its production units all over India.

### CRCA (Cold Rolled Close Annealed)

Available in thickness range of 0.3 ~ 3.2mm, width up to 1870mm and high tensile strengths for various applications in coil / slit, sheets and trap form  
Material grades are mainly commercial, forming, drawing and structural type with customized properties having TS up to 980 MPA

### HRPO (Hot Rolled Pickled & Oiled)

Available in thickness range of 1.6 ~ 6.0mm, width up to 1870mm and strengths for various applications in coil / slit and trap form.  
Material grades are mainly commercial, Forming, Drawing and structural type with customized properties.

### Coated Steel (GI / GA / GL)

Available in thickness range of 0.25 ~ 3.5mm and various coatings in coil / slit / sheets and trap form.  
Rust-resistance and a longer product life material. Main grades are commercial, forming, drawing and structural type.

Perfect Zinc coating rendered through CGL route.

### Colour Coated Steel (PPGI / PPGL)

Available in wide range of colour combinations and emboss patterns. Cut into slit coil or sheet as required by home appliance industry customers.

### Electrical Steel (ES)

Available in a wide range of grades for various applications in Coil / slit and sheet form.  
Grades and properties are as per application in precision motors and generators.
